

# Forskrivningsmodulen (e-resept) FMU 1.0.12 (#10712)

## Release Notes

24.10.2014

## No component defined

---

Fixed a bug that caused the FM Updater UI to crash on startup if the configured download folder does not exist or is not accessible for the current user.

[ RENO-9109 ]

A new updater extension has been added that sets the maximum .NET transaction timeout to 30 minutes (this has the same effect as running the FM.Appserver.SetDotNetTransactionTimeout utility).

[ RENO-9110 ]

A new extension has been added to the FM Updater that will check if the xp\_cmdshell option is enabled in SQL Server, and set that option if it is not enabled.

[ RENO-9272 ]
