

Forskrivningsmodulen (e-resept) Updater 1.0.14 (#12526)

Release Notes

8.12.2015

No component defined

- * The RF certificate extension has been updated to install the new RF certificate (valid 2015-2018) and also the corresponding CA and Root certificates. It also updates the FM configuration to refer to the updated RF certificate.
- * A new extension has been added to install CA and Root certificates used by certificates needed by the FEST services.
